PROJECTS

Devconnect

A social Network for Developers made using MERN stack. It has the features of login, signup, creating and updating profile, creating post, liking and commenting on post.

Keeper

A notes taking app made using MERN stack. It comprised of features such as Login / SignUp, Creating, Reading, Updating and Deleting notes.

Attendance Automation

A windows application to automate the process of attendance at my place of internship. It is made using electron and puppeteer.

- Auto start on boot, except on sunday and 2nd and 4th saturday.
- The schedule can be overridden.
- Updates a log of signin and signouts with time stamp and records error as well.

FULLSTACK DEVELOPER

PERSONAL PROFILE

I am passionate about my work. Because I love what I do, I have a steady source of motivation that drives me to do my best. In my last internship my work period was extended due to my skills, performance and effort.

WORK EXPERIENCE

Frontend Developer (React JS)

Fyntune Solutions Pvt. Ltd. | Aug 2020 - present

Worked on 3 different enterprise level projects.

- Fixed issue in an old project and made it ready for delivery.
- Worked with a team on a project from scratch that used React & Redux. It was an e-commerce platform made specifically for purchasing term-life insurances.
- Working as a frontend lead in a team on an entirely new SaaS project that uses React and Redux in the frontend.
